

Student ID card at Campus Cham, Deggendorf Institute of Technology

We would like to welcome you to the Campus Cham of the Deggendorf Institute of Technology and provide you with your student ID card.

Further information can be found under:

<https://www.th-deg.de/en/students/documents#student-id-card>

Functions

Your student ID card can be used for **cashless payment in the cafeteria**, located in the main building of Campus Cham in Badstraße 21.

In addition, you can use the student printer and copying machine of Campus Cham. (<https://intranet.th-deg.de/rz/drucken>)

Your student card also serves as proof for **student discounts**.

The student is to come up for any costs incurred if the student ID card needs to be **replaced**.

Validity date (Validation)

To confirm the **validity of the student ID** card, the validity date must be renewed every semester. The printable strip on the student card can be re-printed each semester. Please refrain from removing the old date by hand as the card may be damaged in the process. The validation is done at our **validation terminal**.

- For students in Cham, the validation terminal is located in the main building (Badstraße 21), **room 0.10**. Please follow the instructions on the screen.
- In most cases, your ID card has already been validated for the first semester. You can recognize this by the validity date printed on your ID card. If there is no imprint on your card, the card still needs to be validated.
- Please note the following information when validating the card:

The **printable strip** of the card must be inserted **into the side card slot with the front facing you** (strip at the bottom).

The validity date will then be printed.

Privacy Policy

We collect, process, and store your personal data in the context of the Provisions of DSGVO.

The data you enter in the form "[Application for a new student ID card](#)" will only be used to create your student ID card (chip card). Your personal data will not be passed on to third parties without your prior consent. Your data will be deleted two years after your ex-matriculation.

For this procedure, a procedure description on data protection was prepared and released by the data protection officer of Deggendorf Institute of Technology.

Problems and solutions:

Chip card lost or defective.

Please apply for a new student ID card.

You will find the form [here](#).

In case of a lost card, you can request the old card number by sending a ticket to: campuscard-support@th-deg.de.

Student ID card is not working.

What exactly is not working?

- If date printing at the validation station is not working, please contact our IT support team of Campus Cham under: cham-it-support@th-deg.de
